

Tohid Eghdami

Front-End Developer

- **Contact Info**

Phone: +989307827788

Email: tohideq@gmail.com

Location: Iran, Gilan, Rasht

- **About Me**

Dream it. Believe it. Build it.

I am a junior web developer with over 2 years of experience.

I use JavaScript, TypeScript, and specifically the ReactJS library and NextJS framework to build progressive web applications which support responsive, localization and multi-theme (like dark mode).

Practical searching and self-learning are my other abilities.

I'm on track with learning more about Front-End, Design, DevOps and new stuff.

In my free time, I enjoy working out, watching series and playing games with my friends.

- **Skills & Abilities**

Programming Language: JavaScript, TypeScript
